Thanks Kay,

(b) (6)'s phone isn't working at the moment, and since he doesn't have email I have been sending information through the postal service. I would try to send him a note, telling him when you will be coming to his house, but send it in plenty of time because he has to go into town to get his mail. That will probably be the best way for him. His urine sample (from the Dana Barr event) supposedly had one of the highest levels of 2,4 D and atrazine, so I feel it's really important to make sure you include him.

Karen

Perfect timing Karen I was just looking up your email address! We'll be in the area all next week - September 19-23. We're hoping to schedule most residences for Monday - Thursday so our teams can travel home on Friday.

We're making calls to the volunteers you sent us and I'm having trouble with one phone number. Would you double check the number for (b) (6) - the number doesn't go through. I've got (b) (6).

Thanks!

k

Hi Kay,  
What are the exact dates EPA will be in the Triangle Lake area  
collecting environmental samples?  
Thanks,  
Karen
